

Hygostar nitrile glove EXTRA SAFE SUPERLONG, blue, size XL, 40cm, powderfree

Nitrile gloves Extra Safe Superlong by Hygostar: This disposable nitrile glove has an extra long cuff! So not only your wrists but also your forearm are reliably protected. Another advantage: The nitrile glove is especially resistant thanks to its extremely strong quality. It can be worn as a protective glove against chemicals and is certified according to ASTM D6978-05 for handling cytostatic drugs. The nitrile glove EXTRA SAFE SUPERLONG is a first-class disposable glove that you can always rely on. Due to its properties, the glove is often used in medicine, laboratories and food processing.

- disposable glove
- Nitrile, particularly strong quality, powder-free, non-sterile
- extra long cuff to protect the forearm
- textured fingertips for a good grip, with rolled edge
- very elastic and tight up to the tearing point
- extremely durable, oil and grease resistant

- Protection against chemical, cytotoxic and biological hazards
- skin-friendly, latex-free and therefore suitable for allergy sufferers
- Dispenser box
