

Hygobase surgical gown ECO PP, blue, 115x140cm elasticated arms + waistband

Gown Eco made of PP by Hygobase This disposable gown is made of very cheap PP fleece. It offers a light protection against liquids - splashes roll off. The wide cut of the smock is especially comfortable and provides a lot of freedom of movement. The most important features of the smock Eco:

very cheap quality easy protection against liquids wide, comfortable cut air-permeable with arm rubber and waist band

- Polypropylene fleece protective gown
- especially light quality, very reasonable
- non-sterile, light protection against liquids
- Waist and neck straps for secure fit, sleeves with elastic bands
- generous cut for best freedom of movement
