

Hygostar smock "DUO" long PP/PE XL white/blue, 156x142 cm

The smock DUO is extremely practical. It is a smock, protective sleeve and apron in one. The DUO smock is therefore much cheaper than the individual products and protects your storage capacity, as you only need one article. The special thing: The smock has welded-on protective sleeves and a welded-on apron made of waterproof polyethylene (PE). The smock itself is made of soft PP and therefore especially comfortable. The welded-on apron provides extra protection and can easily be shortened to three lengths by means of a tear-off perforation. The smock DUO is breathable and absolutely hygienic. It is equipped with elasticated sleeves and a tie band at the back for easy donning. The gown is very suitable for industry, hospitals and laboratories. New now also in size XXXL!

- Special Coat
- Polypropylene, with welded-on PE sleeves and PE apron
- breathable, absolutely hygienic, easy to put on
- Time saving
