

Hygostar protective sleeves PE, white 40my, 40cm, PU: 100 pieces

This protective sleeve is made of pure polyethylene. The protective sleeve PE is very impermeable to moisture and durable. It has a very good grip, as there is elastic at both ends. The protective sleeve PE offers a very good protection of normal clothing in the food sector and during preparatory work.

- Polyethylene
- waterproof
- hard-wearing
- with elastic at the ends
