

Hygostar protective sleeves SMS, white with knitted cuff, PU: 100 pieces

The protective sleeve is made of SMS, a three-layer material in which two layers of polypropylene fleece surround a layer of meltblown. This protective sleeve is breathable and impermeable to moisture. It also has a soft and comfortable knitted cuff. Especially in the food industry, the protective sleeve SMS can be used.

- SMS (Polypropylene, Meltblown, Polypropylene)
- waterproof, breathable
- great wearing comfort, no sweating
- soft, pleasant knitted cuff
