

Hygostar overboots PP/CPE, white 47x42cm, with straps

This white overboot is made of polypropylene with a chlorinated polyethylene coating. The overboot is moisture proof and has a grippy sole. It is also very tear-resistant and stable. The overshoe fits very securely because it is held by straps. It is ideal for use in the food and pharmaceutical industry or in hospitals.

- Polypropylene fleece with cast polyethylene
- with straps for secure hold
- waterproof and very tear resistant
- grippy sole even on slippery/damp floors
