

## Hygobase CPE-overshoes ECO, red, machine made 25my, 41x15cm

---

Overshoes Eco made of CPE by Hygobase These machine-made overshoes are particularly inexpensive. They are made of so-called CPE (Cast Polyethylene). CPE is more durable and stronger than standard PE - a strong material for overshoes that have to withstand a lot of mechanical stress. Properties of the overshoes Eco at a glance machine-made, very favourably priced double-sided clipped welding waterproof, protection against moisture ideal for visitors and short operating times also available as a more durable, hand-sewn version

- CPE (Cast Polyethylene), approx. 25 my
- double-sided clipped welding
- machined
- waterproof
