

FFP3 protective mask, without valve, soft cup, white, PU: 10 pieces

Description

- innovative filter technology without valve, premium quality
- minimal breathing resistance and therefore highly comfortable
- ergonomic, extra soft cup with nose pad
- very comfortable even when worn for long periods
- allergy- and latex-free, antiviral and antibacterial
- 2 rubber bands for a tight fit
- protects against dust and non-toxic fibres, also for work with glass wool, asbestos and sanding paintwork
- in the dispenser box (on request also available in single blister and with your logo)
