

HygoClean multi-purpose cloth TETRA PREMIUM, blue, 38x40cm, 145 gr./m², PU: 450 pieces

The multi-purpose cloth TETRA is made of a tightly needled non-woven fabric, which makes it very durable. The TETRA is very absorbent and it does not fluff. In addition it is boil-proof up to 8 times. It is particularly suitable for preventing contamination and cross-contamination on surfaces that come into contact with food, as it is available in five colours. The Tetra is suitable for all cleaning work in kitchens, hotel rooms, sickrooms and laboratories.

- textile fleece
- very densely needled, 145 g/m²
- highly absorbent
- very durable
