

HygoClean Alcoholic hand disinfection, 5 litres Curacid Curaman, biocide

Alcoholic hand disinfection Curacid® Curaman The alcoholic hand disinfection Curacid® Curaman is a fully virucidal hand disinfection and therefore highly effective. It is ideal for hygienic and surgical hand disinfection in hospitals and the food industry and provides highly effective protection against bacteria, fungi, enveloped and non-enveloped viruses, including MRSA, TB, HBV/HCV/HIV, Rota, Noro, Corona and many others. Apply to dry hands before, after or between different work steps, especially when handling organic substances or food. It is important that a sufficient amount is applied so that the hands are completely wetted. Properties of the alcoholic hand disinfection Curacid® Curaman at a glance:

RKI-listed / VAH-approved virucidal effective according to EN 14476 bactericidal and fungicidal effective according to EN 1500

- fully virucidal alcoholic hand disinfection, therefore highly effective against corona viruses

for hygienic and surgical hand disinfection in hospitals and food industry
highly effective against bacteria, fungi, enveloped and non-enveloped viruses, including
