

HygoClean waste sacks, 130l, black, 55my 82x120cm, LDPE, 25 pcs

Material info: LDPE refuse sacks

The abbreviation LDPE stands for low density polyethylene. LDPE is therefore a form of polyethylene (PE). PE is very elastic and insensitive to acids, alkalis, alcohols, oils and water - an excellent material for bin liners or refuse sacks. Low density PE (LDPE) is much softer and more flexible, but also less resilient than high density PE (HDPE). Due to the higher strength properties, HDPE films can be produced up to approx. 5 my, LDPE films are usually not thinner than 12 my.

- Low Density Polyethylene Film
- soft-elastic
- extremely tough and tear-resistant

Item no.

WL49834

Model

HygoClean-32442

Products for the electronic industry

Manufacturer	FRANZ MENSCH
Manufacturer article no.	32442
GPSR manufacturer data	Franz Mensch GmbH Werner-von-Siemens-Straße 2 DE-86807 Buchloe www.franz-mensch.de
Length	1200 mm
Width	820 mm
Sales unit	1 PU
Content unit	20 piece
Manufacturer colour information	black
Colour	black
Contents (liters)	130 l
Material	Low Density Polyethylen (LDPE)
