

## winter glove COLD PROTECT HPT-vinyl coating, black, size XXL

Cold protection glove Cold Protect by Hygostar: The cold protection glove is made of elastic, breathable polyamide fine knit. Due to the seamless workmanship a pressing or rubbing while wearing the glove is prevented. The thick acrylic lining of the Cold Protect provides pleasant warmth. A soft HPT vinyl foam coating on the outside provides good chemical resistance and a secure grip on oily and greasy objects. The Cold Protect also has an anti-vibration protection.

- elastic, breathable, seamless polyamide fine knit
- thick, soft and warming acrylic lining
- 3/4 soft HPT vinyl foam coating outside
- good chemical resistance, antivibration protection
- secure grip in case of moisture/oil/grease
