

Nylon/elastane fine knitted glove ERGO STAR nitrile nitrile microfoam coating, red, size L

Work gloves Ergo Star by Hygostar: The Ergo Star consists of a highly elastic and very breathable nylon-elastane fine knit. This makes the work glove particularly breathable and sensitive. An additional nitrile micro-foam coating on the palm and fingertips ensures very good abrasion resistance. The Ergo Star has a comfortable fit and is resistant to oil and grease. The Ergo Star work glove is particularly suitable for medium-heavy jobs where dexterity is required, e.g. storage, assembly and packaging.

- Highly elastic, breathable, seamless nylon-elastane fine knit
- palm and fingertips with nitrile microfoam coating
- excellent fit, extremely sensitive
- high abrasion resistance
- excellent resistance to oil and grease

item number	WL49919
