

Hygostar cut protection glove CUT ALLFOOD SENSITIVE STEEL light blue, stainless steel core, 13 gauge, food safe, size L/9

Cut protection gloves Cut Allfood Sensitive Steel by Hygostar: The cut protection glove Cut Allfood Sensitive Steel consists of high-quality and light steel fibres, which are knitted extra dense. The cut protection glove is medium-weight, antimicrobial and does not cause skin irritations because no glass fibres were used. Due to the reinforced fingertips, the glove has a particularly high tactile property and the extra long cuff provides optimum protection for the hand carrying the knife. The Cut Allfood Sensitive Steel cut protection glove can be worn on both sides.

- Cut protection gloves made of especially high-quality light steel fibres in extra dense knitting
- medium weight and antimicrobial
- no skin irritation, because without glass fibres
- highest tactile properties through reinforced fingertips

- extra long cuff
- left and right hand portable
- optimal protection for the knife-holding hand
