

Hygostar nitrile work glove NITRIL GRIP nitrile coating, yellow, size L

Working gloves Nitril Grip by Hygostar: The Nitril Grip is made of comfortable cotton, which ensures a pleasant wearing comfort. Thanks to the dipped nitrile coating the glove is abrasion resistant, waterproof and even more durable than leather gloves. The work glove has a very good dry grip and a knitted cuff also ensures a good fit. The Nitrile Grip work glove is ideal for medium-heavy rough work and for handling greasy and oily objects.

- Work glove
- cotton, nitrile coated (dipped), with knitted cuff
- more durable than leather gloves
- abrasion resistant and waterproof
