

Hygostar fine knit glove NEON ACE black PU coating, neon-yellow, size M/8

Working gloves Neon Ace by Hygostar: Thanks to the highly elastic polyester fine knit the Neon Ace is especially breathable and comfortable to wear. The yellow signal colour on the back of the hand ensures good visibility at work. Thanks to the PU coating of the palm and fingers, the work glove is particularly robust and offers excellent tear and abrasion resistance. The Neon Ace can be washed and is suitable for handling food. It is particularly suitable for dry areas of application as it provides a secure grip.

- highly elastic, breathable, seamless polyester fine knit
- fluorescent yellow signal colour for good visibility
- Nylon fine knit with robust PU coating on palm and fingers
- excellent sense of touch
- high tear and abrasion resistance
- highest wearing comfort, washable
- secure grip especially in dry areas of application
