

Eye wash station Medidrop I 2x500ml sodium chloride solution 0.9%.

There are special eye rinsing stations to ensure that your eye rinsing solution is always hygienically stored and quickly at hand in an emergency. An eye wash station is a wall mount for a complete set of two eye wash bottles. The Eye Care Medidrop I eye rinsing station contains two eye rinsing bottles with 500 ml sodium chloride solution (.9%) each. Eye rinsing with a sodium chloride solution is particularly suitable for rinsing out foreign bodies, e.g. dust, dirt or splinters.

ready for use and sterile Eye rinsing bottles with ergonomic rinsing head incl. mirror and pictogram for easy handling dust-tight and space-saving integrated eye emergency plan Click here for the eye emergency plan!
