

First-aid kit Domino, DIN13157, ABS plastic, incl. wall bracket

First aid kit Domino | DIN 13157 The first aid kit DOMINO is equipped with blue, detectable plasters. This makes it the ideal first aid kit for the food industry. Detectable plasters can be detected by a detector machine. This means they DO NOT contaminate the food if the patches should ever get into production. The blue colour of the detectable patches ensures good visual recognition, as they stand out from the food in an optimal way - for more hygiene and safety in food production. In addition, the first aid kit has very practical interior compartments. The inner compartments ensure order and clarity. This means that in an emergency, first aid equipment is more readily available. The DOMINO DETECT first aid kit is filled in accordance with DIN 13157. It meets all legal requirements and its contents are strictly controlled.

- ABS plastic
- content strictly controlled, 4-5 years shelf life
- inside very well sorted (compartments)
- very robust, impact and break resistant
- with wall bracket, can be hung centrally accessible

Products for the electronic industry

Item no.	WL50214
Model	50060
Manufacturer	FRANZ MENSCH
Manufacturer article no.	50060
GPSR manufacturer data	Franz Mensch GmbH Werner-von-Siemens-Straße 2 DE-86807 Buchloe www.franz-mensch.de
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
ESD compliant	no
