

Hygostar full view goggles with air valves, scratch-resistant

Safety glasses anti-fogging | PVC from Hygostar: These safety glasses are anti-fogging (N) and scratch-resistant (K). They are made of transparent, pleasantly soft PVC with polycarbonate lenses. The safety glasses are ventilated and do not fog up thanks to the integrated air valves. In addition, the safety glasses are very suitable as overglasses for spectacle wearers. They are particularly comfortable and fit perfectly. Thanks to the elastic rubber band, the goggles sit close to the face. The safety glasses reliably protect your eyes from dust, acids and even splashing liquids. An overview of the important features of the anti-fogging safety spectacles:

fog-free (N), integrated ventilation valves scratch-resistant (K) very comfortable to wear elastic headband, individually adjustable, can be combined with visual aid/glasses

- PVC with polycarbonate lenses
- Indirect ventilation through integrated air valves, fog-free (N)
- high wear comfort
- best suited for spectacle wearers
- Protection against dust, acids and liquids (also for splashing liquids)
- scratch-resistant (K)
