

Hygostar all-purpose safety spectacles, blue temples length & height adjustable

All-purpose safety glasses Fit Plus | Hygostar: The all-purpose safety glasses Fit Plus st a fashionable, lightweight plastic safety glasses with an easily exchangeable panoramic lens made of hard-coated polycarbonate and an integrated side protection. The lens is colourless, but the frame is blue. The temple is adjustable both in length and height. The coating makes the lens highly resistant to scratches and many chemicals. The all-purpose goggles are very light and offer very good protection for the entire field of vision. These goggles can be used in laboratories, for work with compressed air, for precision mechanical work, for turning, drilling and milling work and for wood and plastic processing. They provide good protection against fine-grained dust, small splinters or even sparks.

- Plastic with polycarbonate lenses
- temples adjustable in length and height, very comfortable to wear
- easily exchangeable panorama pane, scratch-resistant, fog-free
- integrated side protection and shock absorber in the forehead area for more safety
