

Hygostar detectable safety knife "Small", blue

Safety and hygiene have top priority in the food industry. The safety knife is fully detectable because it is made of a special plastic and a metal blade. The blade is enclosed in plastic, which makes the knife particularly safe during work - no open blade, no injuries. The knife lies well and grips well in the hand - even in cold temperatures and with slippery or wet hands. detectable, blue plastic 8 cm long injury-proof sharpened blade not replaceable HACCP-compliant ideal for cutting foils, cartons, nets, for opening letters
