HygoClean arm lever dispenser, white, with wall holder for 500ml/1.000ml bottles, with adapter

Universal dispenser for liquids in Euro bottles This dispenser holder is ideal for hygienic dispensing of soaps, hand disinfectants, washing lotions or hand creams. The special thing: Thanks to the arm lever it can be operated with the elbow. This means that you do not touch the lever with your hands, but only with your arm. This procedure is particularly hygienic because there are considerably fewer germs on the arms than on the hands. Cross-contamination is thus effectively prevented. The dosage quantity of the arm lever dispenser can be adjusted exactly to your needs. Choose between three different stroke settings. The correct setting of the dosage quantity saves money. Only the amount of liquid that is really needed is dispensed. The arm lever dispenser is universally suitable for all Euro bottles. The suitable adapters for 5ml and 1ml bottles are included in the delivery. Plastic, white Dimensions:H 33cm (with bracket 35cm), x D 9,5cm x W 1cm flexible dosage for economical consumption lockable, so that only authorized personnel can change the bottles incl. adapter for 5ml and 1ml bottles, wall bracket and exchangeable pump
