

HygoClean disinfection column | stainless steel 1500x450x450mm, without dispenser

Description

Disinfection column | stainless steel by Hygoclean The mobile disinfection column made of stainless steel shines with an elegant appearance and is easy to clean at the same time. It is ideal for supermarkets, shops, waiting rooms and all entrance areas to effectively implement hygiene measures for visitors, customers and employees. The hygiene station for hand disinfection is also space-saving and no wall mounting is necessary. Due to the stable base it is tilt resistant and can be combined with the Hygoclean Euro dispensers!

Your advantage: The scope of delivery includes a mounting set with which the disinfection and soap dispenser can be easily mounted to the disinfection column. It consists of 4 stainless steel pan-head screws M5 x 10 mm + 4 self-locking nuts made of stainless steel M5. Features of the stainless steel disinfection column at a glance:

can be easily cleaned space-saving space-saving approx. 10 kg heavy and tilt resistant no wall mounting necessary

Our hygiene tip: Order the contactless Euro dispenser with sensor technology (Art. 88862)!
