

## Automatic soldering iron for R470

- for automated process and high-performance soldering
- is controlled by the UCR470 Control Box and can be used in conjunction with the R470 high performance tips with their precise positioning system
- the TRA470 mechanism is actuated by compressed air, allowing quick and automatic tip changes when tips are worn or when different tip geometries are used in the same soldering process
- works with soldering iron TR470

item number	WL50753
model	TRA470-B
manufacturer	JBC
manufacturer item number	TRA470-B
