

Cartridge changer for R470 tips

- for automated processes
- designed for use in combination with the new tips R245 or R470
- works with compressed air to fix and release the tips automatically
- In order to facilitate automatic fixing and releasing of the tips, the position of the stand can be adjusted by swivelling it by up to 35° in both directions and thus optimally adapted to the working position.
- can be combined with the automatic soldering machine TRA and the control box UCR.
