Cartridge changer for R245 tips

• for automated process
• designed for R245 tips
• Tip stand mechanism uses compressed air to automatically lock and release tips
• In order to facilitate the automatic fixing and releasing of the cartridges, the position of the stand can be adjusted by swivelling it by up to 35° in both directions and thus optimally adapted to the working position.
• It can be combined with the TRA245 automatic soldering iron and the UCR245 control box.
