

Viscose cap, white

The viscose cap in the shape of a boat from DS SAFETY WEAR is designed for hygienically sensitive work areas and reliably protects the hair on the head. It is ideal for laboratories, food production, clean rooms or production areas where cleanliness and protection of clothing are crucial.

Made from high-quality polypropylene, the cap is lightweight, robust and breathable, making it comfortable to wear even for long periods. The boat shape adapts well to the head and can also be used as helmet protection if required.

The viscose cap corresponds to risk category 1 according to the PPE regulation, which makes it a standard-compliant aid for professional use. Thanks to its white color and one-size-fits-all design, it can be used flexibly and ensures complete coverage of the head hair for all users.

- high-quality polypropylene
- Shuttle shape

- breathable
- light and robust
- can also be used as helmet protection

Item no.	WL51239
Model	SCHIFF
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	SCHIFF
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 PU
Content unit	100 piece
Detail content unit	100 piece
Colour	white
Incl. battery	no
Material	polypropylene
Size	One Size
ESD compliant	no
Risk category (PPE regulation)	Category 1
Type of cover	Cap
