

ProSafe®2 arm warmers, 45cm, white

The ProSafe® 2 sleeves from DS SAFETY WEAR are designed to protect the forearms in hygienically sensitive work areas. They are ideal for laboratories, food production, clean rooms or production areas where cleanliness and protection of clothing are crucial.

Made from microporous film laminate, the arm warmers offer lightweight and flexible protection with good breathability. Elasticated bands on both sides ensure a secure fit on the wrist and upper arm and prevent slipping during work.

With a length of 45 cm, the cuffs reliably cover the forearm and protect against dirt or liquids, making them a practical aid in everyday professional work.

- microporous film laminate
- double-sided elastic band

Item no.

WL51273

Products for the electronic industry
