

Beret cap, type "CLIP", blue

The "CLIP" beret cap from DS SAFETY WEAR is specially designed for use in hygienically sensitive work areas and reliably protects the hair on the head. It is used in laboratories, the food industry, production facilities or in cleanroom environments where cleanliness and hygiene have top priority.

Made from 100% polypropylene, the hood is particularly lightweight, yet robust and hard-wearing. The breathable material makes it comfortable to wear, even during prolonged use, while the elasticated drawstring ensures a secure fit and keeps the hood reliably in place. With a diameter of approx. 49 cm, it fits flexibly on different head sizes, making it suitable for most users.

The beret hood is supplied in a packaging unit of 100 pieces, making it ideal for everyday use in companies, facilities or production lines. Their easy handling and easy-care material provide a practical, hygienic solution for everyday professional use.

- 100 % polypropylene

- approx. 49 cm diameter
- with elastic band
- breathable
- light and robust

Item no.	WL51547
Model	CLIPB
Manufacturer	DS SAFETY WEAR
Manufacturer article no.	CLIPB
GPSR manufacturer data	DS SafetyWear Im Rohnweiher 14 DE-53797 Lohmar www.dssafetywear.de
Sales unit	1 PU
Content unit	100 piece
