

Lumina ergonomic table lamp, 2900-6000 K, touch control panel, dimmable, white.

High flexibility and strong luminosity: The Lumina table lamp is suitable for any workplace and can be clamped to any flat surface. 5 dimming levels, colour temperatures from 2900 K - 6000 K and a timer function offer the right setting option for every application. Thanks to an included remote control, you can easily and quickly set the appropriate lighting or timer. On the lamp itself there is also a touch control panel with all setting options.
