Bit set Y-bit, TORX® (T30), 5 pcs. 1/4" in box (41635), 50 mm

With the bit set Y-bit, TORX® (T30), 5-piece 1/4" in box (41635), 50 mm, Wiha supplies a tool that is specifically tailored to the requirements of electronics and precision assembly. Reduces your costs: bits can be found quickly and easily thanks to yellow color coding - with uv light even in dark surroundings ensures precise work, even in confined spaces. The combination of dimensional accuracy and material quality creates a durable tool for everyday use.
• Reduces your costs: Bit can be found quickly and easily thanks to yellow colour marking - with UV light even in dark environments.
• Saves time: No long searching thanks to brightly coloured bit, short bit change time thanks to long service life
• Increases your efficiency: The specialist with 120x longer service life* due to optimised bit for Y-shaped screws. (*in comparison to Wiha standard bit)
• Until now, when buying bits, it was not clear which bits were suitable for which application. Wiha puts an end to the complexity between the machine used, the screwing case and the large selection of different bits. Thanks to Wiha's revolutionary bit concept, the shape of the screw is the only factor that determines the choice of the right bit, making the Y-Bit ideal for screwing Y-shaped screws with an angle other than 90° between thread and screw head. Thanks to the patented, extended torsion zone, the bit is also suitable for impact and impact wrenches and has a 120 times longer service life compared to Wiha standard bits. In addition, the coloured bits can be found quickly and easily and, thanks to the colour coating, are also easy to find in the dark with UV light. This reduces the number of lost bits and saves the cost of purchasing new ones.
• application: Suitable for screwing Y-shaped screws. Also suitable for impact and impact wrenches.
