

## Bit set T-bit, square (#2), 5 pcs. 1/4" in box (41662), 50 mm

---

Bit Set T-Bit, square (#2), 5 pcs. 1/4" in box (41662), 50 mm from Wiha was developed for professional applications in electronics production. The technical benefits include Reduces your costs: Bit can be found quickly and easily thanks to blue colour marking - with UV light even in dark environments, Saves time: No long searches thanks to brightly colored bit, short bit change time thanks to long service life and Increases your efficiency: The specialist with 120x longer service life\* thanks to optimized bit for T-shaped screws. (\*compared to Wiha standard bit) Until now, there was no clarity when buying bits as to which bits were suitable for which application. Wiha puts an end to the complexity between the machine used, the screw application and the large selection of different bits. Thanks to Wiha's revolutionary bit concept, only the screw shape is decisive when choosing the right bit. For example, the T-bit is ideal for tightening T-shaped screws with a 90° angle between the thread and the screw head. Thanks to the patented, extended torsion zone, the bit is also suitable for impact and impact screwdrivers and has a 120x longer service life compared to Wiha standard bits. In addition, the colored bits are quick and easy to find and, thanks to the colored coating, are easy to find even in the dark with UV light. This reduces the number of lost bits and saves the cost of buying new ones. In combination with its well thought-out ergonomics, the bit provides a convincing overall package for professional use.

- Reduces your costs: Bit can be found quickly and easily thanks to blue colour marking - with UV light even in dark environments.
- Saves time: No long searching thanks to brightly coloured bit, short bit change time thanks to long service life
- Increases your efficiency: The specialist with 120x longer service life\* due to optimised bit for T-shaped screws. (\*in comparison to Wiha standard bit)
- Until now, when buying bits, it was not clear which bits were suitable for which application. Wiha puts an end to the complexity between the machine used, the screwing case and the large selection of different bits. Thanks to Wiha's revolutionary bit concept, the shape of the screw is the only factor that determines the choice of the right bit. This makes the T-bit ideal for screwing T-shaped screws with a 90° angle between the thread and the screw head. Thanks to the patented, extended torsion zone, the bit is also suitable for impact and impact wrenches and has a 120 times longer service life compared to Wiha

standard bits. In addition, the coloured bits can be found quickly and easily and, thanks to the colour coating, are also easy to find in the dark with UV light. This reduces the number of lost bits and saves the cost of purchasing new ones.

- application: Suitable for screwing T-shaped screws. Also suitable for impact and impact wrenches.

<b>item number</b>	<b>WL52537</b>
model	7048T902
Alternative item description	7048T902
manufacturer	WIHA
manufacturer item number	41662
GPSR manufacturer information	Wiha Werkzeuge GmbH Obertalstraße 3-7 DE-78136 Schonach www.wiha.com
scope of supply	5 x T-Bit 50 mm square 1/4" #2
order unit	1 set
content unit	1 set
product series	7048 T
VDE	no
type of screw	inner square
ESD safe	no
packaging mass	set
square socket	#2 / 2,8"
tool length	50 mm

## Other versions
