

## Bit Set FlipSelector T-Bit 25 mm mixed 13-piece 1/4" (41826)

- Reduces your costs: Bit can be found quickly and easily thanks to blue colour marking - with UV light even in dark environments.
- Saves time: No long searching thanks to brightly coloured bit, short bit change time thanks to long service life Simple and fast bit removal thanks to clear arrangement and automatic opening at the touch of a button
- Increases your efficiency: The specialist with 120x longer service life\* due to optimised bit for T-shaped screws. (\*in comparison to Wiha standard bit)
- Until now, when buying bits, it was not clear which bits were suitable for which application. Wiha puts an end to the complexity between the machine used, the screwing case and the large selection of different bits. Thanks to Wiha's revolutionary bit concept, the shape of the screw is the only thing that matters when choosing the right bit, making the T-Bit ideal for screwing T-shaped screws with a 90° angle between thread and screw head. Thanks to the patented, extended torsion zone, the bit is also suitable for impact and impact wrenches and has a service life 120 times longer than that of Wiha standard bits. In addition, the coloured bits can be found quickly and easily and, thanks to the colour coating, are also easy to find in the dark with UV light. This means that the number of lost bits can be reduced and the cost of replacing them can be saved. The bits, including the bit holder, are clearly and compactly stored in the FlipSelector, which allows easy and quick bit removal.
- Application: Suitable for screwing T-shaped screws. Also suitable for impact and impact wrenches.
