

Bit Set XLSelector T-Bit 50 mm Phillips, TORX®, hexagon 13-piece 1/4" (41831)

- Reduces your costs: Bit can be found quickly and easily thanks to blue colour marking - with UV light even in dark environments.
- Saves time: No long searching thanks to brightly coloured bit, short bit change time thanks to long service life
- Increases your efficiency: The specialist with 120x longer service life* due to optimised bit for T-shaped screws. (*in comparison to Wiha standard bit)
- Until now, when buying bits, it was not clear which bits were suitable for which application. Wiha puts an end to the complexity between the machine used, the screwing case and the large selection of different bits. Thanks to Wiha's revolutionary bit concept, the shape of the screw is the only factor that determines the choice of the right bit. This makes the T-bit ideal for screwing T-shaped screws with a 90° angle between the thread and the screw head. Thanks to the patented, extended torsion zone, the bit is also suitable for impact and impact wrenches and has a 120 times longer service life compared to Wiha standard bits. In addition, the coloured bits can be found quickly and easily and, thanks to the colour coating, are also easy to find in the dark with UV light. This means that the number of lost bits can be reduced and the cost of replacing them can be saved. The bits are compactly and space-savingly stored in the XLSelector in the most common drives
- application: Suitable for screwing T-shaped screws. Also suitable for impact and impact wrenches.

Item no.

WL52546

Model

SB7948T950

Products for the electronic industry

Alternative article name	SB7948T950
Manufacturer	WIHA
