

ESD screwdriver handle, PicoFinish® ESD, magnetic, for 4 mm micro bits (43709), 96 mm

- Reduces your costs: Electrostatic dissipative tools protect electronic components from destruction
- Easy handling: Extra long swivel cap for optimum guidance, sensitive work and controlled power transmission thanks to slim handle with soft grip zone
- The challenge when working on electronic components is that they can be damaged even at the lowest voltage. The electrostatically dissipative PicoFinish® ESD screwdriver handle easily masters this task. Thanks to its long, slim handle and fast-turning zone, the screwdriver handle is ideal for precise and sensitive work on sensitive workpieces in combination with MicroBits. The magnetically holding function of the bit holder ensures easy handling as well as an optimal hold. The ergonomic handle design with soft zone allows comfortable working. Sensitive and fast turning is supported by the smooth-running turning cap. In combination with 4 mm MicroBits, the dissipative tool dissipates electrostatic energy during screwing in a controlled and safe manner. The screwdriver handle is manufactured according to the international standard IEC 61340-5-1 and thus guarantees maximum protection of the electronic components. It also has a surface resistance of $10^6 - 10^9 \text{ Ohm}$
- application: In combination with 4 mm micro-bits ideally suited for fine and filigree screwing on electrostatically sensitive components.

Item no.	WL52613
Model	281P1ESD
Alternative article name	281P1ESD
Manufacturer	WIHA
Manufacturer article no.	43709
GPSR manufacturer data	Wiha Werkzeuge GmbH Obertalstraße 3-7 DE-78136 Schonach www.wiha.com

Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Product series	281P
VDE	no
ESD compliant	yes
Packaging dimensions	piece
Tool length	96 mm
Blade length	96 mm
