

Disinfection column with arm lever dispenser aluminum

The Disinfection station is the perfectly hygiene station thanks to an arm lever dispenser and is suitable for liquid or gel-like disinfectants. So it can be used for entrance areas, waiting rooms, productions and washrooms. The hygiene station consists of an aluminium column and an aluminium frame, which can be equipped with any A4 sheet. The tank from the dispenser is made of plastic and individually fillable. The drip tray is included to keep the floor clean and dry. The disinfection station is also free-standing and there is no electricity or wall mounting needed.
