

## Voltage detector, contactless, 70-1000V, with visual & audible alarm

- Contactless voltage tester
- For safe and reliable live display
- Suitable for contactless testing of earth/ground connections, testing of connections and proper connections, detection of cable breaks
- Highly sensitive voltage tester with a large, non-contact voltage testing range of 70-1000V
- Bright red LED and audible alarm indicate AC voltage
- On/Off switch to maintain battery life
- With integrated self-test function and green LED "On" indicator
- The design in the overvoltage category CAT IV 1000V offers protection against transient Voltage peaks and thus a safe testing of fixed installations
- Double insulated to ensure safe use near live circuits
- Ergonomic, two-component design with handy pocket clip
- Delivery without batteries (2 x AAA 1.5V)
