

Cable holder CC2002 for JBC Nano stations

The CC2002 Cable Collector has been specially developed for JBC Nano stations and offers an optimal solution to avoid unwanted movements during soldering. Thanks to its innovative design, it reliably keeps interfering cables away from the soldering area, enabling precise and undisturbed operation. Ideal for professional applications, the CC2002 ensures a clean and efficient working environment.

- The new Cable Collector is designed for perfect movement adjustment to avoid unwanted movements in the tool during soldering and to keep the disturbing cables away from the soldering area.
- The CC2002 Cable Collector is designed for NANO stations.

Item no.	WL53974
Manufacturer	JBC
Manufacturer article no.	CC2002

GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei www.jbctools.com
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
