

Auto Feed Iron SF250-A

The SF250 is appropriate for extensive soldering applications that require one free hand. Using the Push Button, the solder wire will be automatically provided. This Auto Feed Iron suits to feed perforated solder wire. This means better flux flow and outgassing, avoids solder and flux splashing. It incorporates an anti-rotation screw for best cartridge alignment. The Auto Feed Iron is connectable to an Automatic Solder Feeder SF and at the same time to a Modular Station by means of the Stand SF250-SE (sold separately). It works with C250 cartridges and is supplied with the C250403 Cartridge and the Guide Set (0022295) for Solder Wire $\varnothing$ 0.9 - 1.0 mm.

Item no.	WL53988
Model	SF250-A
Manufacturer	JBC
Manufacturer article no.	SF250-A
GPSR manufacturer data	JBC Soldering SL Ramón y Cajal 3 ES-08750 Molins De Rei

www.jbctools.com

Length with packaging	300 mm
Width with packaging	125 mm
Height with packaging	65 mm
Sales unit	1 piece
Content unit	1 piece
Incl. battery	no
Handpiece (type)	soldering iron
Matching tips	c250
Matching control unit	SF, DI, DDE, DME
ESD compliant	yes
