

Screwdriver Set SoftFinish® Slot, Phillips 6 pcs (07152)

- Fulfils your requirements: Common output drives and dimensions compactly stowed in one set
- Protects your health: With patented SoftFinish® handle design for hand and muscle-friendly work. Recommended by AGR doctors and therapists
- Increases your efficiency: Unique Wiha handle size concept with optimum balance between power and control
- When screwing by hand, the wrists and muscles are put under heavy strain in the long run. The particularly ergonomically shaped SoftFinish® screwdriver, which ensures optimum transmission of hand power, provides a remedy. With the long, slim handle sizes, small screws can be screwed in safely and quickly. For screwing in large screws, there are large handle sizes with which higher torques can be applied. In addition, the different handle sizes are adapted to the hand of professional screwdrivers, which is always the same size. The roll-off protection and the screw symbol printed on the end of the handle ensure efficient working. Thanks to its optimum grip, the SoftFinish® screwdriver is particularly suitable for applications in dry environments. The position of the hard and soft zones on the handle supports perfect grip for fast and powerful turning
- Application: Suitable for dry applications in industry and trade.

Item no.	WL54559
Model	302HK6SO
Alternative article name	302HK6SO
Manufacturer	WIHA
