

ERGO™ Diagonal cutters with self-opening two-component handle, chrome-plated, 200 mm, industrial packaging

High-performance cutting edge

- ERGO™ Two-component handles: thermoplastic surface on hard polypropylene for a better grip
- Durable side cutter, developed during the ERGO™ process
- Suitable for cutting copper, iron and piano wire
- Distance between joint and cutting edge reduced, for maximum cutting capacity with small opening width of the handle
- Patented opening spring integrated in the handle with on/off function
- High Speed Steel
- Chrome-plated, rust protection treated
- High-performance cutting edge
- Bolted connection for excellent cutting performance and accuracy of fit of the cutting edges
- Reduced distance between the joint and the centre of the cutting edges This results in a greater leverage effect and higher cutting performance
- Slim, rounded jaws for improved access to hard-to-reach areas
- Induction hardened cutting edges
- Maximum comfort with minimum effort due to the ergonomic design
- Comfortable 2-component handle for optimum grip
- When the spring is activated, the handles open automatically
