

Replacement frame Custom Steel Stripmaster, 16-30 AWG, with internal spring

IDEAL® Custom Stripmaster® wire strippers are the industry standard for hand-held precision wire stripping tools. With their single-stage, high-leverage pressure function and unique precision blade design, they deliver fast, accurate results with minimal operator effort. Custom Stripmaster® wire strippers can be fully customized to your requirements with your choice of gripping pads and blade sets for maximum flexibility. Optional accessories such as a short-stroke lock and a transparent wire stop further increase the versatility of the tool and ensure consistent stripping lengths. The comfortable handles are color-coded to quickly identify the compatible wire gauge - red handles for larger wires (10-14 AWG) and black handles for smaller wires (16-30 AWG). Made of rugged die-cast zinc, these lightweight wire strippers are designed for maximum mobility and high productivity.

- Industry standard for hand-held precision wire stripping tools
- Customizable with your choice of grip pads, blade sets and accessories
- Fast, precise stripping with single-stage pressure function and unique precision blade design
- Designed for maximum mobility and high productivity
- Mechanical design with high leverage for reduced operator effort
- For precise and non-precise stripping applications

Item no.	WL54961
Manufacturer	IDEAL
Manufacturer article no.	LB-1089
GPSR manufacturer data	IDEAL Industries International BV Franciscusweg 267 NL-1216 Hilversum www.idealind.com
Sales unit	1 piece
Content unit	1 piece
Colour	red
Material	Plastic
Incl. battery	no
ESD compliant	no
