

ESD air bubble bags, 170 x 250 mm

The ESD bubble bag in pink from SafeGuard offers reliable protection for sensitive electronic components. With a surface resistance of $R_{pp} < 1 \times 10^{10}$ Ohm and a stud diameter of 10 mm, it ensures the safe dissipation of electrostatic charges. The air bubble bag is made of dissipative LDPE, is free from amines and offers mechanical protection for the contents. With a film thickness of $55 \mu\text{m} \pm 10\%$ and a size of 150 x 100 mm, it is very versatile. The bag meets the requirements of DIN EN 61340-5-1 and is therefore ESD-certified. Ideal for the safe transportation and storage of electronic components.

- Surface resistance: $R_{pp} < 1 \times 10^{10}$ Ohm
- Knob diameter: 10 mm
- Properties: Dissipative LDPE, without amines, mechanical protection
- 3-ply
- Meets the requirements of DIN EN 61340-5-1

Item no.

WL55189

Products for the electronic industry

Manufacturer	SAFEGUARD
GPSR manufacturer data	Weidinger GmbH Hertha-Sponer-Str. 1a DE-82216 Gernlinden
Sales unit	1 piece
Content unit	1 piece
Colour	rose
ESD compliant	yes
