

ESD boot Big Size 840, S3, smooth leather, unisex, black/royal blue, size 51

At ATLAS®, only the best quality cowhides are processed. Extremely careful selection ensures that only flawless, high-quality and soft leathers are used. The ATLAS Waterproof smooth leather has to withstand special challenges throughout the entire working day. The approx. 2mm thick full-grain cowhide leather is particularly characterised by its lasting waterproofness and thus ensures dry feet for several hours. It is also particularly breathable, durable and dimensionally stable.

FUNCTION AND PERFORMANCE IN THE FRESH AIR

Wet and uneven ground, a wide variety of terrain profiles and adverse weather conditions. Especially in outdoor working environments, it's all about the right outsole. With the outdoor outsole technology from ATLAS® you are perfectly equipped. The individual tread blocks offer maximum flexibility for optimum contact with the ground and guarantee maximum grip. The coarse lug tread with a depth of 4.5mm significantly reduces the risk of

slipping on wet or slippery surfaces. With this sole, you are optimally equipped for outdoor use - from construction sites to green areas.

The anti-puncture steel midsole is made of corrosion-resistant stainless steel and protects the foot against sharp objects such as nails. It has been optimally adapted to the last fit and foamed into the midsole material. This means that you are optimally protected even during long and hard indoor and outdoor use.

The anatomically shaped steel toe cap protects the foot in the toe area against impact of min. 200 joules and a compressive stress of min. 15 kN, according to EN ISO 20345:2012.

Especially on cold working days, the ATLAS models with woven fur lining offer warm feet. The woven fur lining is pleasant, soft and offers high wearing comfort even in adverse weather conditions.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.

Item no.	WL55743
Model	Big Size 840 ESD
Model line	Big Size 840 ESD
Manufacturer	ATLAS
Manufacturer article no.	80900-51
GPSR manufacturer data	ATLAS-Schuhfabrik GmbH & Co.KG Frische Luft 159 DE-44319 Dortmund www.atlasschuhe.de
Length with packaging	350 mm
Width with packaging	250 mm
Height with packaging	150 mm
Sales unit	1 pair

Content unit	1 pair
Manufacturer colour information	black / royal blue
Colour	blue, black
Incl. battery	no
Protective cap	yes
Type of shoes	safety boots
Safety class	S3
Shoe sole	Outdoor sole technology
Slip resistance	SRC
Shoe width	W10 (standard width)
Penetration resistance	yes
Features (shoes)	• Waterproof smooth leather • Outdoor sole technology • penetration inhibition • steel toe cap • Woven fur lining • 3D cushioning system • suitable for insoles-DGUV 112-191
Material (shoes)	waterproof smooth leather
Shoe size EU	51
ESD compliant	yes
