

ESD clogs CL 370, SB, Cleanline, unisex, white, size 39

The CLEANLINE outer material is an innovative high-tech material that is particularly water-repellent, bacteria-inhibiting and at the same time breathable and odour-inhibiting. It is particularly suitable for use in hygienically sensitive indoor areas. Due to its special structure, it is particularly light and supple, but at the same time very tear-resistant and durable.

The MPU® Light sole technology offers ultra-light running comfort and optimal cushioning. The ergonomic tread design of the sole provides more grip and supports natural movement. (SRC) The tread arrangement and sole edge design provide stability and even more grip.

The anatomically shaped steel toe cap protects the foot in the toe area against impact of min. 200 joules and a compressive stress of min. 15 kN, according to EN ISO 20345:2012.

Particularly in everyday working life, with high physical stress, temperature-regulating

properties are not only required, but expected. The aktiv-X functional lining stands for the highest quality, innovative technology and offers the wearer permanent, active moisture regulation. The aktiv-X functional lining regulates moisture and ensures that the shoes dry again quickly. It does not stain, is skin-friendly and abrasion-resistant.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.
