

ESD safety shoe CL 570 2.0, S2, Cleanline, unisex, white, size 45

The CLEANLINE outer material is an innovative high-tech material that is particularly water-repellent, bacteria-inhibiting and at the same time breathable and odour-inhibiting. It is particularly suitable for use in hygienically sensitive indoor areas. Due to its special structure, it is particularly light and supple, but at the same time very tear-resistant and durable.

ATLAS® brings together state-of-the-art technologies and the anatomical needs of every wearer. The new INNOFLEX SYSTEM® is a holistic running sole concept and supports the runner in every phase of movement. From the first to the last contact with the ground, the sole complex is permanently guided by the same, natural line of force, the INNOFLEX LINE. It optimally guides the forces from the heel to the toe and thus supports the natural line of force progression. Special areas such as the CLOUDZONE in the heel are responsible for the corresponding energy absorption, i.e. cushioning. The large-format

tread surfaces, which are equipped with particularly energy-absorbing MPU® material, absorb the energy and return it to the movement process in a targeted manner. This guarantees fatigue-free walking throughout the entire working day.

The anatomically shaped steel toe cap protects the foot in the toe area against impact of min. 200 joules and a compressive stress of min. 15 kN, according to EN ISO 20345:2012.

Particularly in everyday working life, with high physical stress, temperature-regulating properties are not only required, but expected. The aktiv-X functional lining stands for the highest quality, innovative technology and offers the wearer permanent, active moisture regulation. The aktiv-X functional lining regulates moisture and ensures that the shoes dry again quickly. It does not stain, is skin-friendly and abrasion-resistant.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.

Item no.	WL55972
Model	CL 570 2.0 ESD
Model line	CL 570 2.0 ESD
Manufacturer	ATLAS
Manufacturer article no.	87000-45
GPSR manufacturer data	ATLAS-Schuhfabrik GmbH & Co.KG Frische Luft 159 DE-44319 Dortmund www.atlasschuhe.de
Length with packaging	350 mm
Width with packaging	250 mm
Height with packaging	150 mm
Sales unit	1 pair
Content unit	1 pair
Manufacturer colour information	white

Products for the electronic industry

Colour	white
Incl. battery	no
Protective cap	yes
Type of shoes	safety shoe
Safety class	S2
Shoe sole	MPU INNOFLEX system
Slip resistance	SRC
Shoe width	W10 (standard width)
Features (shoes)	• CLEANLINE upper material: odour and bacteria inhibiting • MPU INNOFLEX system • steel toe cap • active-X functional lining • 3D cushioning system • suitable for insoles-DGUV 112-191
Material (shoes)	cleanline upper
Shoe size EU	45
ESD compliant	yes
Risk category (PPE regulation)	Category 2
