

ESD low shoe CX 200 women, S2, cowhide, ladies, black, size 36

At ATLAS®, only the best quality cowhides are processed. An extremely careful selection process ensures that only flawless, high-quality and soft leathers are used.

CHIC, SAFE AND COMFORTABLE

Whether for a business look or with jeans, the models in the City Style series always go perfectly with your outfit. The City Style models are produced on a women's last that fits perfectly and thus offer a comfortable fit and unmistakable wearing comfort. For this, the latest technologies and the individual requirements of each wearer are brought together. Be inspired by the models of the City Style series!

The anatomically shaped steel toe cap protects the foot in the toe area against impact of min. 200 joules and a compressive stress of min. 15 kN, according to EN ISO 20345:2012.

Particularly in everyday working life, with high physical stress, temperature-regulating properties are not only required, but expected. The aktiv-X functional lining stands for the highest quality, innovative technology and offers the wearer permanent, active moisture

Products for the electronic industry

regulation. The aktiv-X functional lining regulates moisture and ensures that the shoes dry again quickly. It does not stain, is skin-friendly and abrasion-resistant.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.

The ATLAS women's models were specially developed to meet the needs of women's feet and thus offer maximum wearing comfort in your working environment. A high level of wearing comfort and a pleasant soft footbed played a special role in the development. Thus, thanks to anatomical specifications and the latest technologies, a women's model with the highest degree of flexibility, dynamics and comfort could be developed.
