

ESD low shoe CX 321, O2, cowhide, unisex, size 39

At ATLAS®, only the best quality cowhides are processed. An extremely careful selection process ensures that only flawless, high-quality and soft leathers are used.

Whether you're wearing a classic suit or an urban business look, the models in the City Style series always go perfectly with your outfit. The City Style sole system brings together the latest technologies and the individual requirements of every wearer, whether on hard industrial floors or on the chic office parquet. The outsole system is light, flexible and particularly comfortable - be inspired by the models of the City Style series!

Particularly in everyday working life, with high physical stress, temperature-regulating properties are not only required, but expected. The aktiv-X functional lining stands for the highest quality, innovative technology and offers the wearer permanent, active moisture regulation. The aktiv-X functional lining regulates moisture and ensures that the shoes dry again quickly. It does not stain, is skin-friendly and abrasion-resistant.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.
