Boots GTX 835 GORE-TEX, S3, smooth leather, unisex, black, size 39

At ATLAS®, only the best quality cowhides are processed. Extremely careful selection ensures that only flawless, high-quality and soft leathers are used. The ATLAS Waterproof smooth leather has to withstand special challenges throughout the entire working day. The approx. 2mm thick full-grain cowhide leather is particularly characterised by its lasting waterproofness and thus ensures dry feet for several hours. It is also particularly breathable, durable and dimensionally stable.

ICE-COLD WORKING WORLDs
Biting cold and fickle weather conditions: For these outdoor areas, it's all about the right outsole. With the ICE-AGE outsole system from ATLAS® you can reach your destination with surefootedness. This depends on the interaction of several factors: The ergonomic tread design of the MPU outsole provides extreme grip on cold and slippery surfaces (SRC) and optimum insulation of the shoe interior from cold bridges. At the same time, the

MPU midsole is primarily responsible for soft-bedding cushioning and energy absorption of the stepping movement. This combination guarantees the wearer unconditional support on all surfaces. See for yourself!

With the puncture-resistant XP® technology, ATLAS® offers an innovative system to protect the foot against sharp objects such as nails. A high-tech textile material containing aramid fibres is used for this purpose. The increased safety is not at the expense of wearing comfort, because the textile is metal-free, extremely light and supports the natural torsion of the foot.

The anatomically shaped steel toe cap protects the foot in the toe area against impact of min. 200 joules and a compressive stress of min. 15 kN, according to EN ISO 20345:2012.

GORE-TEX functional lining offers best performance in wind and weather. Reliable waterproofing prevents moisture from penetrating. High comfort indoors, perfect protection outdoors, all year round. The GORE-TEX membrane allows foot heat and moisture to escape to the outside and thus ensures pleasant foot temperature control, even on hot days.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.

Item no.	**WL57685**
Model	GTX 835 GORE-TEX
Model line	GTX 835 GORE-TEX
Manufacturer	ATLAS
Manufacturer article no.	7000-39
GPSR manufacturer data	ATLAS-Schuhfabrik GmbH & Co.KG Frische Luft 159 DE-44319 Dortmund www.atlasschuhe.de
Length with packaging	350 mm

Width with packaging	250 mm
