Boot XR 845 XP, S3, smooth leather, unisex, black/royal blue, size 47

At ATLAS®, only the best quality cowhides are processed. Extremely careful selection ensures that only flawless, high-quality and soft leathers are used. The ATLAS Waterproof smooth leather has to withstand special challenges throughout the entire working day. The approx. 2mm thick full-grain cowhide leather is particularly characterised by its lasting waterproofness and thus ensures dry feet for several hours. It is also particularly breathable, durable and dimensionally stable.

REVOLUTIONARY AND MULTIFUNCTIONAL
Uneven ground, unstable weather conditions and surfaces with different textures. Especially in the outdoor sector, it's all about the right outsole. With the new XR® outsole system from ATLAS® you can reach your destination with surefootedness. The perfect combination of nitrile outsole and MPU® midsole is produced using the latest production technology in a direct foaming process. The interaction of several factors is crucial here:

The ergonomic tread design of the nitrile outsole provides extreme grip, abrasion resistance and supports natural movement. With the highest slip resistance class SRC, it offers reliable grip even on slippery surfaces. In turn, the midsole is primarily responsible for soft-bedding cushioning. The basis is the unique multi-functional polyurethane, or MPU® for short. The combination of the specially profiled nitrile outsole and the extremely energy-absorbing and at the same time stabilising midsole guarantees the wearer unconditional grip on all surfaces.

With the puncture-resistant XP® technology, ATLAS® offers an innovative system to protect the foot against sharp objects such as nails. A high-tech textile material containing aramid fibres is used for this purpose. The increased safety is not at the expense of wearing comfort, because the textile is metal-free, extremely light and supports the natural torsion of the foot.

Alu-tec® technology: The new lightness. Aluminium has not only served as a high-tech material in aviation and the automotive industry for years, but also in many ATLAS safety shoes today. The anatomically shaped aluminium toe cap is particularly light and shifts the centre of gravity of the shoe to the middle of the foot. This actively helps to prevent tripping accidents caused by imbalance. The thermally neutral behaviour of aluminium also prevents cold bridges from forming inside the shoe and thus guarantees a pleasant foot climate in all seasons.

The overcap offers special protection against abrasion in the area of the shoe toe, protects the upper leather in this area against premature wear and noticeably increases the service life of the safety shoe.

Especially on cold working days, the ATLAS models with woven fur lining offer warm feet. The woven fur lining is pleasant, soft and offers high wearing comfort even in adverse weather conditions.

Work healthier with the right cushioning. The new 3D cushioning system from ATLAS® enables noticeably gentle and fatigue-free walking. The basis for this outstanding walking comfort is formed by three basic components: Pressure relief. Cushioning. Dynamics. This is ensured by the perfect interaction of a pressure-relieving insole and the light and responsive MPU sole technology.

geeignet für die Einlagenversorgung-DGUV 112-191

ATLAS® offers you a wide range of different orthopaedic insoles. The articles marked here are suitable for orthopaedic insoles according to DGUV regulation 112-191. The marking on the shoe is decisive for this.

Item no.	WL59333
Model	XR 845 XP
Model line	XR 845 XP
Manufacturer	ATLAS
Manufacturer article no.	37100-47
GPSR manufacturer data	ATLAS-Schuhfabrik GmbH & Co.KG Frische Luft 159 DE-44319 Dortmund www.atlasschuhe.de
Length with packaging	350 mm
Width with packaging	250 mm
Height with packaging	150 mm
Sales unit	1 pair
Content unit	1 pair
Manufacturer colour information	black / royal blue
Colour	blue, black
Protective cap	yes
Type of shoes	boots
Safety class	S3
Shoe sole	XR sole technology
Slip resistance	SRC
Shoe width	W10 (standard width)
Penetration resistance	XP metal-free
Features (shoes)	• Waterproof smooth leather • XR sole technology • XP metal-free penetration resistance • alu-tec aluminium toe cap • Overcap • Gore-Tex thermal lining • 3D cushioning system • suitable for insoles-DGUV 112-191
Material (shoes)	waterproof smooth leather
Shoe size EU	47
ESD compliant	no
Risk category (PPE regulation)	Category 2
